

External and Internal Barnet Integrated Clinical Service delivery during COVID-19

BICS Early Help (EH) Clinical Support

All EH Clinicians will provide mild to moderate Mental Health clinical support remotely in a stepped care model working closely with Early Help Hub colleagues, schools and wider family service and community partners. All EH clinicians will provide assessments and therapeutic sessions remotely i.e., via SKYPE, telephone, video calling etc.

EH Clinicians have made themselves available to schools and Early Help Hubs for Children and Young People (CYP) experiencing mild / moderate mental health concerns and to offer advice and support to professionals and/or CYP families.

This service is available Monday to Friday 9am to 5pm by contacting admin on 07926085495. All calls will be directed to the clinical service.

NCL have a crisis line for professional support for CYP in Mental Health (MH) crisis which will be in and out of hours. We will escalate to this crisis line as appropriate for CYP at risk of self-harm / suicide. The number will be available out of hours to support any other professionals. BICS Early Help Managers have made themselves available to NHS specialist Barnet CAMHS for any mental health enquires. We see all our professional phone consultation slots to be used as being a step down from the out of hours line in Barnet where there isn't a specialist CAMHS need.

MASH Clinical Support

Our Early Help Manager is available on 07514952262 and will be the direct and main contact for MASH colleagues via telephone or Skype. She will continue to manage all referrals from MASH using the EHM BICS request form. Our Early Help Manager will be seconded by a Deputy on 07926085280 and will be the contact when the Early Help Manager is on annual leave. Any clinical technical issues using the EHM function, please call 07926 085273 where our colleague will be able to assist you.

BIC Children Social Care clinical support during COVID-19

All CSC clinicians will be providing high intensity moderate mental health clinical support remotely in a stepped care model working closely with the wider family service, Barnet NHS CAMHS, community (Police, Schools etc) voluntary and NCL partners.

CSC clinical team duty rota to be overseen by the CSC Clinical Manager
