

# Brent Cross Cricklewood regeneration

**The new Brent Cross West Thameslink station is coming - let us know what you think!**

**The new Brent Cross West Thameslink station** will be central to the **Brent Cross Cricklewood regeneration** programme and will provide capacity for up to 8 trains per hour reaching Kings Cross St Pancras in just 12 minutes.

**The government is investing more than £400m in the new station**, the key to unlocking a vibrant new town centre for north west London as part of Barnet Council's biggest ever growth and regeneration programme. The regeneration of Brent Cross Cricklewood will deliver 7,500 new homes, more than 3million sq ft of work space, up to 27,000 new jobs, new and improved schools and health facilities.

Following extensive design work and earlier public consultation, we are now preparing to submit a planning application for the train station but before we do, we would like your input on our design.

**Come and see us on Wednesday 3 April between 5pm and 9pm at Whitefield School, Claremont Road, London. NW2 1TR**

**Or on Thursday 4<sup>th</sup> April between 10am and 4pm at the Clayton Crown Hotel, 142-152 Cricklewood Broadway, London. NW2 3ED**

Our project team will also be available to update you on the projects we are already delivering to support the creation of the new station including the sidings for storing and changing trains, and replacements for the train driver accommodation, waste transfer station and progress on the strategic rail freight facility.

**If you have any questions or are unable to attend but would like further information, please contact us on 0344 225 0003 or email us: [brentcrossthameslink@capita.co.uk](mailto:brentcrossthameslink@capita.co.uk)**

**You can also write to us: Freepost RTZS – BLHZ - EUXC, GL Hearn, 65 Gresham Street, London, EC2V 7NQ**
